

**26th Annual IASBS Meeting on
Condensed Matter Physics**
July 7-9, 2021 (16-18 Tir 1400)

*The
Physics Society
of Iran*

The 26th annual IASBS meeting on condensed matter physics will be held **online** this year. The aim of this meeting is to bring together experimental and theoretical scientists in the fields of **condensed matter, soft matter & biological physics, and complex systems** to present their most recent research and to create an atmosphere for fruitful discussion. The poster session provides an excellent opportunity for young researchers and students to gain invaluable experience through online discussion.
